COLLYER CAWINGS.

COLLYER, April 1. Good-bye, March

Farmers very busy.

List to the cry of the owl.

Soil in good condition for spring work. Gophers are ready for their summer ambles.

Crops for stock feed will be put in quite extensively.

Mr. Hanchet, son of Mr. E. A. Hanchet, arrived Tuesday evening.

Capt. Hey, of Lane county, was in town again Tuesday, bringing two wagon loads

J. P. Marquand and wife, of Ogallah, spent Friday in town, trading with our merchants.

The K. P. R. R. painter plied his brush last Saturday to the improvement of some

parts of the depo and surroundings.

Grass has started up in the wallows, and the small, first leaves of many of the flowering plants are now above ground. A. P. McMillan, of Leavenworth, and B. S. Pearson, of Centerville, Iowa, were registered at the Ainslie House last week.

Mr. H. J. Bargis, of Chicago, made a very pleasant, though short, call, last Fri-day, on her wife's friend, Miss Stickney. Mr. Hawks' wife and five children arrived on the six o'clock train Friday evening, and immediately left for their

home, near the Hackberry. Many vegetable gardens have received their annual preparations, and are now intrusted with the tiny seeds which are promises of so many hearty dinners later

A deeper interest than usual is being taken this year by our people in the poultry business, especially among the ladies. Discussions as to the desirability of this or that breed are freely discussed, as also the benefits to be derived by using the 5th day of September, 1882, for the unpaid taxes of the year 1881, will be conveyed to the purchasers unless redeemed on or before the 5th day of September, 1882 for the unpaid taxes of the year 1881, will be conveyed to the purchasers unless redeemed on or before the 5th day of September, 1882.

Last Thursday was a pleasant, warm day, and was used by many farmers to assessed. take the necessary journey to town after supplies. As has of late been often the case, it was a weather-breeder, and Fri-day evening considerable snow fell. By Saturday noon it had all disappeared, and spring was enjoyed once more.

An amusing incident happened last Saturday evening, as the fast passenger train pulled out from the station. Two tramps had waited long for its arrival, only to find that the brakeman was ready, not only to prevent them getting on, but also to put off two others who had rode Keeney, J F this far. While driving them away from the track, the train started up, and the brakeman, after two unsuccessful attempts to catch it, preferred to be left rather than to be dashed against the mail erane by making a third. Then came the triumph for the tramps, and with shouts and laughter showed that they appreciated the joke. After the train was under way the conductor missed his man, and at Buffalo Park telegraphed an inquiry. When the message reached Collyer, Mr. Thompson, the brakeman, was in the office waiting for some train to take him to his home at Brookville.

Enos McCollum is teaching in 18.

Two more months of school in Ogallah. J. P. Marquand moved from town to his place on Monday.

Mr. H. Cutler's cattle have come through the winter looking as well or a little better than any other we have seen. Mr. Merit Wilcox, on Big creek, went to Wa-Keeney on Saturday of last week, just before supper Sabbath evening. C. U. LATER.

BANNER BUGLINGS.

BANNER, March 22.

Roads good and no mud.

Wheat and rye look well. Some potatoes planted; Good Friday is our day to plant.

A good deal of timber is being planted

Considerable oats and barley being sown in this neighborhood. There is one thing that we can boast of

in this country: Though we have had one of the most severe winters we ever had, the opening of spring finds the land in good condition for working.

All kinds of stock are improving in condition since the cold weather passed, and our people enjoy good health and lively hopes of a prosperous crop season.

There is going to be a much more general effort to raise crops this season than there ever has been heretofore.

Your humble correspondent had a call Your humble correspondent had a can last Thursday from three gentlemen from Marshall county, to show them good government land to homestead; and showed them land with which they were well pleased, and they started the same day to Wa-Keeney to put on the papers, and return to Marshall county to make the necessary arrangements to move out.

Their names were Chas. Deobald, John
Dalby and Richard Steadman. Come
on, gentlemen, we have some of the finest
land in America, and Uncle Sam is able

good carpet of any kind.

BANNER, March 23.

Considerable complaint of cattle still unning after loco, and some are dying rom eating the weed.

We all rejoice that the WORLD is pros-perous enough to show itself an honor to any country in size and ability.

In a peaceful and quiet community items of general interest do not come to the surface in profusion, and the Banserites are a very peaceful, mind-your-ownbusiness sort of people; no marriages, deaths or births to report. No new discoveries of anything wonderful made lately; not the slightest scent of scandal in the wind, but farmers are spreading themselves like a hen on a bushel of eggs. Speaking of hens reminds me to say that Mrs. J. Cantrel B., since eggs came down, has set the last hen she has, and, of course, will make it pay. will make it pay.

Mr. Hawks' family arrived last Friday night from Illinois. I understand that Mr. Hawks comes to Kansas well-heeled. He brought some good horses, among them a Norman stallion; and I am of the opinion that the raising of good horses would be one of the best-paying busi-nesses that a man could invest in. It has been demonstrated that this country is eminently adapted to the raising of high-bred stock, both horses and cattle; and I think if people would be more particu-lar about the quality of their stock than about the number, they would do better. At all events, raising good-grade Norman and Clyde horses in western Kansas will
